STOP DIGITAL DIVIDE

2021-2-RO01-KA210-ADU-000048969

COURSE OVERVIEW:

The training course is thoughtfully designed to address the urgent need for improving digital literacy skills of adults. It spans 40 hours and comprises theoretical concepts and practical social coaching exercises, forming a holistic approach to digital inclusion. Our scope is to support adult educators in their mission of empowering adults to confidently manage routine digital activities.

PROJECT OBJECTIVES:

This course is not only a step towards closing the digital divide but also a means to achieve broader project objectives. It directly contributes to social inclusion by equipping partners with enhanced social coaching experiences. The course also supports digital skills improvement, enabling adult educators to become adept trainers and coaches in addition to fostering a strong professional network among European partners.

FUTURE STEPS:

With the theoretical and practical content in place, we are excited to begin the pilot testing phase with the participation of 20 adults per country. This phase will provide valuable insights and help us further refine and tailor the course to meet the unique needs of our diverse audience.

STOP DIGITAL DIVIDE

2021-2-RO01-KA210-ADU-000048969

WHAT TO EXPECT:

The adult education professionals will find a wide range of topics, catering to various digital skill levels. Highlights include:

- Exploring life domains through the Wheel of Life on Padlet.

- Engaging in debates about the role of robots in education on Kiallo.

- Creating visual representations of digital competence frameworks on Thinglink.

- Collaboratively evaluating information using the CRAAP criteria on Jamboard.

- Designing visually appealing content for different purposes with Canva.

- Enhancing cognitive skills through engaging challenges on Lumosity.

- Learning the art of effective digital storytelling with Storydice.

- Gaining skills to create interactive content and share knowledge effectively through Genial.ly.

Join us in our mission to bridge the digital divide and equip ourselves with the skills needed for today's digital world. Keep an eye out for more updates on how you can be part of this transformative journey. Stay connected and stay digital-savvy!
